

Industrial Gold Reciprocating Compressors

7.5-10 hp CA2 Basic Series

- A** A. Easy to read tank pressure gauge
- B** Centrifugal unloader-allows for more controls and fail safe head pressure bleed down after unit cycle is complete
- C** Cast compressor inner cooler manifold-no flimsy copper pipe to break, allows for reliable day in day out compressor operation
- D** Disk and spring compressor valves-allows for day in day out use, no flimsy reed valves to crack or break
- E** Heavy duty steel compressor intake filter silencer- allows for noise reduction and protection of compressor filter element
- F** Cast iron compressor discharge cooler manifold-allows for additional cooling and reliable day in day out compressor use
- G** OSHA compressor belt guard-allows for safe use of the compressor system
- H** Industrial grade electric motor
- I** Common operational pressure switch-allows for ease of use and reliability in the field.
- J** Common magnetic motor starter mounted and wired-allows for fast installation, ease of use and motor protection, by using a heavy duty reliable contactor
- K** ¾ npt air outlet-for ease of installation and package maintenance
- L** ASME/CRN 200PSI working pressure rated air receiver

No start up kits needed for operation (Units ship factory filled)
